Western Plastics

Pallet Stretch Film

High Performance Hand Wrap

Western Plastics Wrap "HS" Series is a high quality linear low-density polyethylene stretch wrap. With cling on both sides, this three-layer, co-extruded film uses a standard 3" I.D. core and is available in 16" and 18" width. As a high performance hand wrap, this film is designed to securely unitize irregularly shaped and difficult-to-wrap loads.

Roll Length (Ft.)	2,000	1,000	1,500
