Air-Flow Technical Specifications

	Standard	Premium	Standard Manual	Tolerance % (+/-)
Length (ft)	10,000	3,300	3,000	2
Tensile Stress at break (lb)	71	92	>44	10
Elongation at break (%)	35	320	>20	10
Thickness (micron)	9	36	>8	5
Film Width (Inch)	17	19	>17	2
Weight (oz/ft)	0.038	0.167	0.033	10
Guaranteed Pre-stretch (%)		200		
Rolls per Pallet	40	40	90	
Total feet per Pallet	400,000	132,000	270,000	

Standard Airflow: The majority of products that need aeration are palletized using this particular type.

Premium: Especially developed for products wrapped on a full-automatic machine, equipped with a power pre-stretched system. This strengthened film enables a proper wrapping on the most advanced wrapping machines since it stretches up to 200%.

Air-Flow Applications

Products Palletized HOT:

Beverages: Beers, Fruit Juices, Refreshments - Vino Spumante
Food Industry: Butter, Yogurt, Pre-fried Potatoes, Cereals, Cookies, Candies
 Canned Fruits, Canned Food, Cubes of Sugar
Pet Food: Dehydrated Animal Feed, Canned Fodder
Pharmaceutical Products

Products that need to breath after palletizing:

Fruit - Vegetables - Eggs - Various types of cheese - Flowers

Deep Freeze Products:

Ice Cream - Poultry - Meat - Fish - Vegetables
