

EVOLUTION ROVER

Pre-stretch self-walk wrapping machine

The **WP Rover Wrapper WP601** utilizes a soft start/stop operation. This machine also features an automatic home position. The **WP Rover Wrapper WP601** offers PLC control, reliable performance and easy operation.

Highlights:

- Battery charger and battery indicator
- Soft start + emergency stop + robot speed adjustable
- Film carriage is driven by chain
- Sensor detects the pallet height
- Top and bottom layers are adjustable

The standard optoelectronic switch allows automatic test pallet height, not to be limited by size and weight of pallet. This machine offers high maneuverability, lower cost (uses pre-stretched film to save material) within a small packing space! Among other safety features is an audible sound signaling the start of a wrap cycle and a flashing light indicating when the machine is in operation.

EVOLUTION ROVER

Specs:

- Charging source 1P, AC220/110V, 50/60 HZ
- Running power: DC 24 V
- Battery: 120Ah
- Quantity of packaging: 200~300pallet / every battery charge
- Running time: battery charging every 7h
- Machine moving speed: 90 meter/min
- Max pallet size (Width * length): ∞
- Min pallet size (Width * length): 600*600mm
- Max wrapping height: 2400mm (optional: 2800mm)
- Packing material: width ≤ 500 mm, out dia. ≤ Φ250mm LLDPE film
- Optional accessory: ① remote –control
- Noise: ≤ 75DB
- Surrounding: humidity ≤ 98%, temperature -10°C~40°C
- Lubricant material: common lubricating grease
