

EVOLUTION PRO

THE STRETCH WRAPPING REVOLUTION

Evolution PRO™

Low Profile Stretch Wrapper
with 250% Pre-Stretch

The Evolution Pro is an easy to use pallet wrap machine which stabilizes your load for stretch wrapping. The wrapper is efficient and cost effective due to two rolls stretching the film to but no less than 250% of the normal length.

The machine is standard with a 65 inch turntable. All motors on the machine are frequency controlled for smooth control. A photocell detects automatically the load height. The operation is simple and intuitive.

The four wrapping programs are individually adjustable on a graphic panel.

The Evolution PRO™ uses a “Quick Load” simplified stretch film carriage.

The Evolution PRO™ simple to operate LCD screen.

Option of a custom fit all steel ramp for pallet jack loading.
