March 27, 2017

Dear Valued Customer,

Our polyethylene resin suppliers have informed us of their intentions to implement a resin price increase effective March 1st. This increase is being supported by improving domestic and global demand, rising feedstock costs, and lower than normal polyethylene inventory levels at the producers.

**In response to this March 1st resin increase, all new orders received on or after March 27th will be priced at a 7% increase.**

**All orders must call for immediate delivery. Based on current lead-times, Sigma Stretch Film can only accept a limited number of new orders. Sigma Stretch Film reserves the right to accept or decline all orders for any reason. Please check with your local plant location.**

Orders placed at current prices will be limited to **less than** one month of your normal purchase levels. Pricing for orders accepted is based upon local lead-times and available resin.

As always, Sigma strives to communicate these increases with adequate lead time and when they are likely to be implemented. Sigma will adjust our position should this resin increase be modified or unsuccessful.

Your Sigma Stretch sales representative will be in contact with you to answer any of your questions and advise you of changing market conditions.

Sincerely,

A handwritten signature in blue ink, appearing to read "Bill Lenchinsky", is written over a light blue horizontal line.

Bill Lenchinsky  
Executive Vice President
