March 27, 2017

Dear Valued Customer,

This letter will serve to revise our previously announced increase letter dated March 7, 2017. Our polyethylene resin suppliers have informed us that they are revising their previously announced \$0.06 March 1, 2017 resin increase to \$0.03 March 1st and \$0.03 April 1st. As a result of this change, Sigma Stretch Film will now revise our previously announced increase as follows:

**In response to the March 1st resin increase, all new orders received on or after March 31, 2017 will be priced at a 4% increase.**

**In response to the April 1st resin increase, all new orders received on or after April 26, 2017 will be priced at a 3% increase.**

**All orders must call for immediate delivery. Based on current lead-times, Sigma Stretch Film can only accept a limited number of new orders. Sigma Stretch Film reserves the right to accept or decline all orders for any reason. Please check with your local plant location.**

Pricing for orders accepted is based upon local lead-times and available resin. As always, Sigma strives to communicate these increases with adequate lead time and when they are likely to be implemented. Sigma will adjust our position should this resin increase be modified or unsuccessful.

Your Sigma Stretch sales representative will be in contact with you to answer any of your questions and advise you of changing market conditions.

Sincerely,

A handwritten signature in blue ink, appearing to read "Bill Lenchinsky", is written over a light blue horizontal line.

Bill Lenchinsky  
Executive Vice President
