August 16, 2016

Dear Valued Customer,

The current resin market is seeing tight supply for most grades of polyethylene and increasing domestic and global demand. As a result, our polyethylene resin suppliers have informed us of their intentions to implement a resin price increase effective September 1st.

In response to this September 1st resin increase, all new orders received on or after September 23rd will be priced at a 6% increase.

All orders must call for immediate delivery. Based on current lead-times, Sigma Stretch Film can only accept a limited number of new orders. Sigma Stretch Film reserves the right to accept or decline all orders for any reason. Please check with your local plant location.

Orders placed at current prices will be limited to **less than** one month of your normal purchase levels. Pricing for orders accepted is based upon local lead-times and available resin.

As always, Sigma Stretch Film strives to communicate these increases with adequate lead time and when they are likely to be implemented. Sigma Stretch Film will adjust our position should this resin increase be modified.

Your Sigma Stretch Film Sales Professional will be in contact with you to answer any of your questions and advise you of changing market conditions.

Sincerely,

A handwritten signature in blue ink, appearing to read "Bill Lenchinsky".

Bill Lenchinsky
