Ref: Pallet Stretch Film Price Increase (LLDPE)

Dear Valued Customer:

Resin manufacturers are implementing a second increase on LLDPE to take effect in March. As a result of this resin increase, Western Plastics must implement an increase on all stretch films pricing as follows:

All Pallet Stretch Films 5%

Normal order requirements received on or before March 2, 2018 calling for immediate shipping will be invoiced at current levels. Orders received on or after March 5, 2018 will be billed at the increased price.

Western Plastics continues to offer a range of down-gauged, high performance films designed to lower your film cost. The expanded HYBRiD80 line of film is available in:

HYBRiD80 Banding Films
HYBRiD80 Hand and Machine Films
HYBRiD80 Wide Web Films
HYBRiD80 Color Films
HYBRiD80 Extended Core Films
HYBRiD80 Engineered Films

Call us today for an alternative, high performance stretch film and improve your stretch film margins.

Thank you for your continued support of Western Plastics.

Sincerely,

A handwritten signature in black ink, appearing to read "P. Cunningham", is written over a light blue horizontal line.

Patrick Cunningham
Vice President
Western Plastics
