

INTEPLAST GROUP, LTD.

AMTOPP DIVISION

December 5, 2011

To Our Valued Stretch Film Customers:

Our raw material resin producers have informed us of their intentions to implement a previously announced price increase. Rising feedstock costs have been stated as the major reason for this price increase. Because of this escalation in resin price, we regrettably must increase our film price. Therefore, effective with all orders received on and after December 27, 2011, there will be a 7% price increase for all AmTopp Stretch Film products. All orders must call for immediate delivery.

It is very important to take note that we will strictly limit orders to a quantity less than one month of your average monthly shipments during the last six months. We must reserve the right to limit orders during this period and reserve the right to accept and decline any order. Please contact your sales representative if you need any additional information.

Thank you for your continuing support of AmTopp stretch film products.

Sincerely,

Tony Tseng

Marketing Director
