

Western Plastics

Pallet Stretch Film

High Performance Hand Wrap

Western Plastics Wrap “HS” Series is a high quality linear low-density polyethylene stretch wrap. With cling on both sides, this three-layer, co-extruded film uses a standard 3” I.D. core and is available in 16” and 18” width. As a high performance hand wrap, this film is designed to securely unitize irregularly shaped and difficult-to-wrap loads.

Technical Data:

ASTM Test Method

GAUGE	13MICRON	16MICRON	90G
Yield (Sq. In./Lb.)	50,283	43,100	
Density (Gms.CC)	0.917	0.917	0.917
Roll Length (Ft.)	2,000	1,500	1,500
Elmendorf Tear (Gms./Sht) MD	150	250	400
TD	400	425	500
Haze (%)	1.2	1.3	1.8
Gloss 45 (%)	86	86	82
Ultimate Tensile MD(PSI)	7,750	8,000	8,750
TD(PSI)	3,000	3,500	4,500
Maximum Elongation MD(%)	450	500	550
TD(%)	700	725	900
